A designer who ships production code. Three years, ten live sites taken solo from research and Figma through to a deployed React / Next.js build — no design→dev handoff. AI and SaaS products, with accessibility (WCAG AA) and design systems as defaults, not afterthoughts.

EXPERIENCE

IN AI Product & Web Designer (contract)

Apr — Aug 2026

- Designed and built the company's corporate site end to end — 5 pages, 60 React components, Next.js App Router, Framer Motion.
- Shipped in three languages (UA / EN / RU) with locale-aware routing.
- Built the design system and mirrored it back into Figma, desktop and mobile, keeping the team in sync with the build.
- Owned the whole loop alone — research, Figma, production code, deploy.

Freelance UI/UX & Web Designer

2023 — present

- Clients across AI, SaaS, e-commerce and wellness: landing pages, brand identity, and full design→code builds.
- Repeat and multi-stage engagements; direct client communication from brief to handover.
- Every build held to WCAG AA and up to 100 Lighthouse across all four categories.

SELECTED WORK

CRUCIBLE Agent Workbench

PRODUCT · AI

A workbench for building AI agents and proving they work — run traces, evaluation, and a full product surface for a technical audience.

`crucible-tau.vercel.app` React · TypeScript · Tailwind

FAIRFARE Booking-flow redesign

UX RESEARCH

An unsolicited redesign of the Ryanair booking flow, argued as a case: an audit of the live product, then a working six-screen prototype. Every selling moment kept, only the dark patterns gone.

`fairfare.vercel.app` Lighthouse 100/100/100/100 · LCP 0.4s · 32 tests

MERIDIAN Fintech showpiece

WEBGPU

A B2B payment brand told as one scroll — the life of a single payment stretched over 0.4 seconds, with scroll driving time rather than space. GPU-compute particle system in three.js TSL, WebGPU path with a WebGL2 fallback.

`meridian-settlement.vercel.app` React · TypeScript · three.js · GSAP

Also live — Hero Lab, a generative-UI tool on Claude · PRAXIS, immersive 3D (Lighthouse 100×4) · TIMBRE, WebGL + Web Audio · Relay, an AI-agent observability dashboard · Ollama concept redesign · Helm, 0→1 brand & site · Stillpoint, wellness. All at vitaniko91-lang.github.io

SKILLS

DESIGN

UI/UX · Figma (auto layout, variables, interactive prototypes) · design systems · Atomic Design · wireframing · user research & usability testing · responsive · WCAG AA accessibility

ENGINEERING

React · TypeScript · **Next.js** · Tailwind CSS · Framer Motion · Vite · three.js · HTML/CSS · Git

AI

Claude / Claude Code · generative-UI tooling · AI-assisted design & build

EDUCATION

Web Design 2.0 — UI/UX Design

Shendrikov Education (Web-Design School) · February 2023
